# OUR VISION

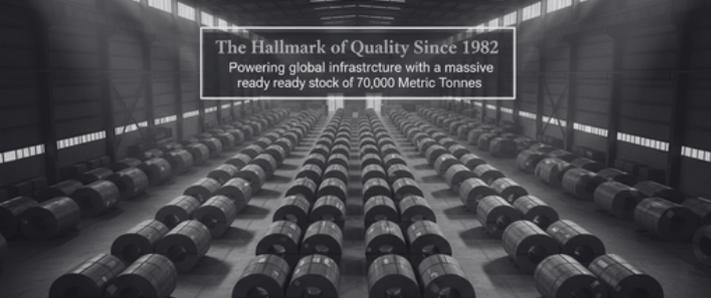

As GNP group of companies we continue to uphold our main Vision of becoming a global leader in the steel market by accomplishing the following strategies.

- To expand in the Asian; specially African market , and GCC.
- To satisfy the needs of all our customers globally by supplying quality products and services, by making attempt to bring improvements in all our activities.
- To make an every attempt to implement the best technologies to improve our productivity and simplify our customer chain.
- To establish good leadership in working with Local communities setting up business in new and upcoming Market.
- To have respect for environment and caring for the communities we work with by making proper utilization of resources available.

# OUR MISSION

We work towards satisfy our customers' expectations, by providing them best service and high quality products at competitive market price as customer's satisfaction adds to our goodwill and which is the wealth of the company. We would like to achieve our Mission by creating improved, good and ethical work environment at our organization for our employees and treat each individual with respect and dignity. This will help the organization to respond to economic and competitive forces more promptly, and each individual will learn to work as team towards the success of the organization. With the help of our experience and teamwork we plan to expand our organization globally and add up different products to our products list.

The Hallmark of Quality Since 1982  
Powering global infrastructure with a massive  
ready ready stock of 70,000 Metric Tonnes

# About Us.

## GNP Group: A Legacy of Steel Excellence

Established in 1982 under the visionary leadership of Founder **Late Mr. Gopal Nanji Patel**, and Director Mr Jayesh Patel. Group has evolved from a local Sharjah trader into a dominant international force in the steel industry. With over 45 years of expertise, we provide the structural backbone for iconic infrastructures across the UAE, and Africa.

### Our Strategic Milestones

- 1982: Founded Hansa Trading, establishing a strong UAE market foothold.
- 1997: Launched Mayur Trading, reaching a massive 70,000 MT stock capacity.
- 2003–2020: Built JK Metal Industries for galvanizing and precision bars.
- 2004: Acquired Three Star Metal, producing 3,000 MT monthly.
- 2025: Expanded globally with the steel and established NZP trading unit for local market.

### Why Partner With Us?

GNP Group delivers excellence through a massive 70,000 MT ready stock of structural steel, pipes, and coils. Our in-house manufacturing ensures precision for beams and customized sections. With three decades of proven global trust and an adaptive logistical fleet, we guarantee efficient, swift delivery. Partner with the industry leader the Hallmark of Quality.

# FUTURE

Considering the future of GNP group we have many projects in pipeline. We are in process of increasing our product list to satisfy our customer's needs, in our future product list we would be including Stainless Steel products, Universal beams and High Grade Plates. We would be soon centralizing our Headquarters in Dubai. In nearby future we would be producing polished Hexagonal bars, Square bars, & Galvanized grating at our existing facility. With the growing market in Africa, GNP Group have an opportunity to establish base in African State soon. Hopefully with the continuous support from the customer and supplier chain GNP group will keep on growing as it has always been.

# FACILITIES

---

Every one of our employee is focused on our customers. From manufacturing to logistics, from sales to management, we honor our commitment to excellence. Whether it is manufacturing high quality products, making deliveries door-to-door with our new trucking fleet or professionally voice answering your questions, our experienced staff of 130 people works hard to meet every need

---

# MACHINERIES

GNP Group is equipped with modern and efficient machinery designed to support a wide range of steel manufacturing and processing operations. Our facilities utilize industry-standard machines for forming, rolling, cutting, welding, and finishing, ensuring consistent quality, precision, and reliability across all products. These advanced systems enable smooth production flow, accurate output, and adherence to high industrial standards.

## EXPANDED METAL MAKING

Advanced expanded metal machines precisely slit and stretch steel sheets to form uniform mesh patterns.

This process ensures high strength, durability, and consistent openings for industrial and structural applications.

## FLAT BAR MAKING

Flat bar production is carried out using rolling and cutting machines that shape heated steel into accurate flat sections.

The process delivers uniform thickness, smooth finish, and reliable dimensional accuracy.

## GI NET MAKING

Galvanized wire netting is produced using automatic mesh weaving machines that interlock zinc-coated wires. This process provides corrosion resistance, structural integrity, and long service life for fencing and industrial use.

## GI SHEET CUT TO LENGTH

Galvanized steel sheets are manufactured through continuous coating and forming machines that apply a protective zinc layer.

The process enhances corrosion resistance while maintaining surface quality and strength.

## MS PIPE MAKING

---

Mild steel pipes are produced using tube forming and welding machines that shape steel strips into round sections.

Precision welding and sizing ensure uniform diameter, strength, and smooth surface finish.

## MS SHEET CUT TO LENGTH

---

MS sheets are manufactured through rolling mills that convert heated steel slabs into flat sheets.

This process ensures consistent thickness, high strength, and suitability for fabrication and construction use.

## SHAFTING BAR MAKING

---

Shafting bars are produced using rolling, straightening, and finishing machines for precise round profiles.

The process ensures high dimensional accuracy, smooth surface finish, and structural reliability.

## TUBE MAKING

---

Steel tubes are manufactured using high-frequency tube mills that form, weld, and size steel into hollow sections.

This process delivers strong, uniform tubes with excellent dimensional control and finish.

**SIZE RANGE FOR  
SQUARE SECTION:  
19MM x 19MM TO  
300MM x 300MM**

**SIZE RANGE FOR  
RECTANGULAR  
SECTION: 40MM x  
20MM TO 400MM x  
200MM**

**SIZE RANGE FOR  
ROUND (PIPE)  
SECTION: 1" TO 8"**

**THICKNESS RANGE  
FROM: 1.0MM TO  
12.0MM**

# MILD STEEL PIPES AND TUBES

**SIZE RANGE FOR  
GALVANIZED PIPES:  
1/2" TO 8"**

**THICKNESS RANGE  
FROM: 1.0MM TO  
6.0MM**

# GALVANIZED STEEL PIPES

**SIZE RANGE FOR EQUAL ANGLE  
SECTION: 20MM x 20MM TO  
300MM x 300MM**

**SIZE RANGE FOR UNEQUAL ANGLE  
SECTION: 100MM x 50MM TO  
300MM x 150MM**

**SIZE RANGE FOR T ANGLE  
SECTION: 50MM x 25MM TO  
200MM x 100MM**

**THICKNESS RANGE FROM: 2.50MM  
TO 16.00MM**

# MILD STEEL EQUAL, UNEQUAL & T ANGLE

**SIZE RANGE FOR WIRE ROD  
COIL: 1.65MM TO 20MM**

**SIZE RANGE FOR ROUND  
BARS ODINERY:  
5.5MM TO 300MM**

**SIZE RANGE FOR ROUND  
EN8 & EN24 GRADE:  
10.0MM TO 300MM**

# MILD STEEL WIRE, ROD COILS & ROUND BARS

**SIZE RANGE FOR  
SQUARE BARS:  
6.00MM x 6.00MM  
TO 100MM x 100MM**

## **MILD STEEL SQUARE BAR**

**SIZE RANGE FOR  
FLAT BAR: 12.00MM  
TO 500.00MM  
THICKNESS RANGE  
FROM: 3.00MM TO  
100.00MM**

## **MILD STEEL FLAT BARS**

**SIZE RANGE FOR I  
SECTION: 100MM x 50MM  
TO 600MM x 200MM**

**SIZE RANGE FOR H  
SECTION: 100MM x 100MM  
TO 400MM x 400MM**

# MILD STEEL I & H BEAMS

**SIZE RANGE FOR U  
CHANNEL: 20MM x 10MM  
TO 300MM x 89MM**

# MILD STEEL CHANNELS

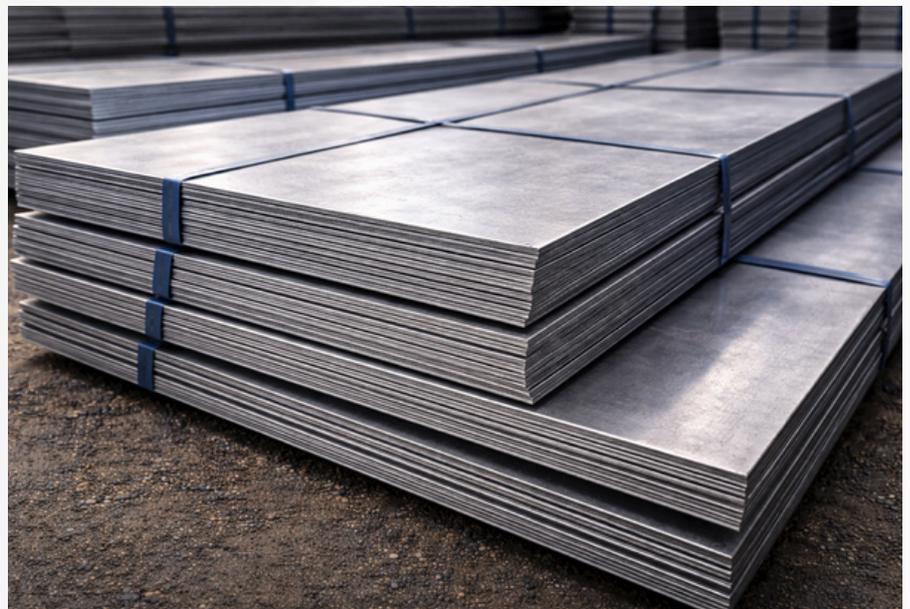

**SIZE RANGE FOR  
SHAFTING BAR:  
4.00MM TO 50.00MM**

## **MILD STEEL**

# **SHAFTING BARS**

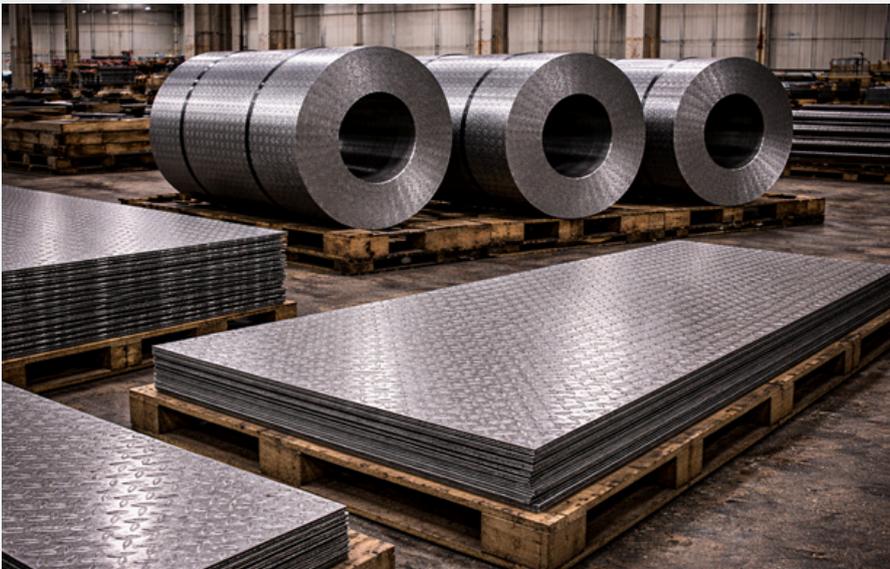

**SIZE RANGE FOR  
MILD STEEL  
SHEET: 4" x 8" TO  
2M x 6M**

**THICKNESS  
RANGE FROM:  
1.20MM TO  
100.00MM**

## **MILD STEEL SHEETS**

# **AND PLATES**

**SIZE RANGE FOR  
CHEQURE COIL:  
1219.00MM TO  
1500.00MM**

**SIZE RANGE FOR  
SHEET: 4' x 8' TO  
1.50MTR x 6.00MTR**

**THICKNESS RANGE  
FROM: 2.00MM TO  
6.00MM**

## **MILD STEEL** **CHEQURED COILS, SHEET AND PLATES**

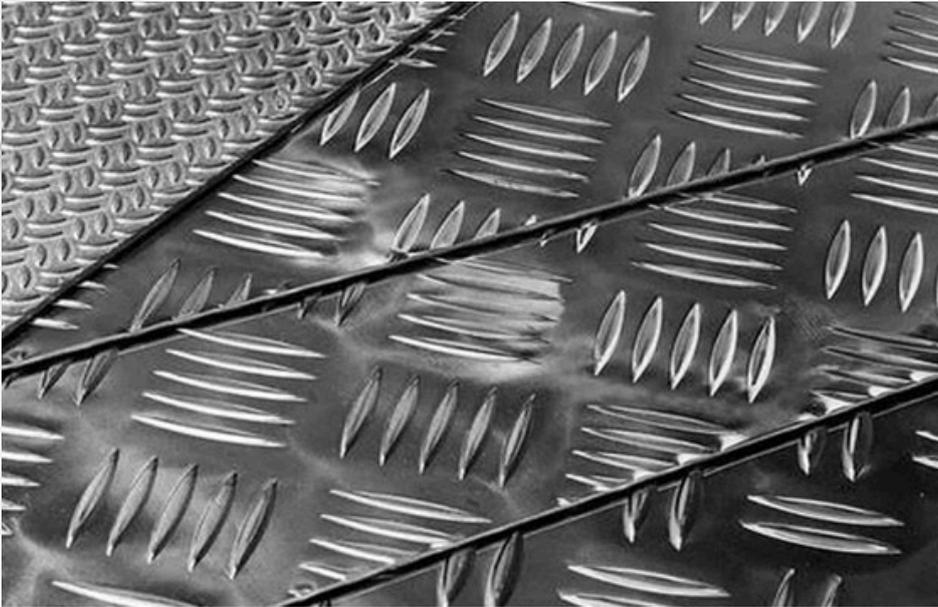

**SIZE RANGE FOR  
EXPANDED METAL:  
4' X 8'**

**SIZE RANGE FOR  
GI & MS NET:  
4' X 8' TO  
1.50MTRS TO  
6.00MTRS**

**THICKNESS  
RANGE FROM:  
2.0MM TO 6.0MM**

## **MILD STEEL EXPANDED METAL & MS, GI MESH**

**SIZE RANGE FOR  
ALUM PLAIN &  
CHEQ SHEET: 4' x 8'  
THICKNESS RANGE  
FROM: 1.0MM TO  
10.0MM**

# ALUMINUM CHEQUERED & PLAIN SHEET

**SIZE RANGE FOR  
GI COIL:  
1219.00MM TO  
1000.00MM SIZE  
RANGE FOR GI  
SHEET: 4' x 8'  
THICKNESS  
RANGE FROM:  
0.45MM TO  
4.00MM**

# GALVANIZED STEEL COILS & SHEET

## **COLD ROLLED SHEETS AND COILS**

**SIZE RANGE FOR  
COLD ROLLED  
SHEET: 4' x 8'  
THICKNESS RANGE  
FROM: 0.70MM TO  
1.20MM**
